RFP 11-06
Network Services supporting VoIP Telephony

Updated for release on 9/14/11
Updated information for release of 9/21/11 is in **Green**

Response Due Date - Extended

The response due date has been extended to Monday, September 26 at 3:00 pm ET. Electronic responses will also be considered as timely delivered responses if submitted by the revised time and date to: slanman@inprs.in.gov and followed by paper copies not later than two days following the September 26 due date.

General Questions

- 1) It is mentioned on page 17 of the RFP, that both of the offices will be consolidated into the office at One North Capitol. What is the expected timing of that consolidation?

A target date would be two to three years away.

- 2) What is the brand name of current IT LAN/WAN components that are currently in place? Will INPRS expect these components to be reused in the new design?

This RFP is for a parallel network that will share wiring closets and cable trays with the LAN/WAN, but is otherwise separate. There will not be any existing telephony hardware that will be reused. The horizontal structured cabling will be reterminated into new patch panels, but otherwise the hardware will all need to be supplied by the vendor.
